Specifications

Overview

Needle holder for the JEX-24 descaler, supplied as a spare component for equipment maintenance. The part is designed to support cleaning and descaling operations with precise application.

Application and use

Intended for use in the JEX-24 model descaler during cleaning and scale removal routines on deck and maintenance areas. It is a practical replacement solution when the original assembly shows wear.

Construction characteristics

Sub-item	with needle
Model	JEX-24

Technical specifications

Length (cm)	19
Width (cm)	4
Height (cm)	4

Net weight (kg)	0.4
Needle diameter (mm)	2

Marking and traceability

SKU	003852
IMPA	590473

Handling, service life and disposal

Store the part in a dry, protected place to preserve the needle assembly and avoid mechanical damage. Replace it according to wear observed in service, and dispose of it in line with local practices for metal components and maintenance parts.
