Specifications

Overview

Foldable 1 m sounding rod designed for practical manual measurements with good durability. Its solid brass construction helps provide robustness for daily onboard use.

Application and use

Suitable for tank inspections and routine measurements on board, especially where a compact instrument makes access and storage easier.

Construction characteristics

Material	brass
Construction type	solid
Foldable	Yes

Technical specifications

Length (m)	1
Weight (kg)	0.52
Sub-item	DOBRAVEL

Marking and traceability

SKU	090858
IMPA	370308

Handling, service life and disposal

Keep clean and dry after use, avoiding impacts and deformation of the folding joints. Store in a protected place to preserve the finish and measurement reliability over time.
